U.S. HealthWorks Medical Group Acquires Trinity Occupational Health

VALENCIA, CALIF – U.S. HealthWorks Medical Group, California’s largest provider of outpatient occupational health care services, today announced the acquisition of the assets of Trinity Occupational Health in Turlock, California. All business operations and patient care will be transitioned to U.S. HealthWorks Medical Group at 1340 Mitchell Road in nearby Ceres/Modesto. Terms of the transaction were not disclosed.

U.S. HealthWorks Medical Group is a full-service occupational health care center offering the complete array of occupational health care services, including injury and illness diagnosis and treatment, pre-placement and post-offer physical exams, drug and alcohol testing, physical therapy and orthopedic services.

“This transition gives our clients the benefits of working with a large organization without compromising the market expertise found at the local level,” said Ryan Collins, CEO and cofounder of Trinity. “It makes sense for everyone. We think the additional resources now available to our clients will make the rehabilitation process for patients more cohesive and efficient.”

“Trinity’s clients and patients can benefit from the access to all the U.S. HealthWorks medical centers throughout California,” says Shelly Neufeld, Regional Vice President of U.S. HealthWorks. “We look forward to helping clients of Trinity Occupational Health to contain overall case costs while providing quality care.”

“This transaction reflects the Company’s optimism and ongoing commitment to California.” said Therese Hernandez, Senior Vice President and General Manager of U.S. HealthWorks in California. “California continues to be a growing area for American business, and we are pleased at this opportunity to serve more employers here.”

About U. S. HealthWorks Medical Group

Based in Valencia, California, U.S. HealthWorks Medical Group was founded in 1995 and is the second largest operator of occupational healthcare centers in the nation. With 113 centers in 13 states and 2,400 employees – including approximately 350 affiliated physicians – U.S. HealthWorks centers serve more than 10,000 patients each day. U.S. HealthWorks centers help employers control work-related injury costs through quality medical care and effective management of claims and lost work time. They specialize in early return-to-work programs, injury prevention and wellness programs.
